August 29, 2011

Dear MYC member:

Although we still have many weeks to enjoy boating it is also time to start thinking about winter storage. MYC will once again be offering winter storage to our members beginning on the 17th of October for boats that weigh up to 24,000 pounds and draw less than 7 feet at rates that are among the lowest in the Milwaukee area. For anyone who signs a winter storage contract and makes a deposit \$250 by September 30th, the rate will be \$1.69 per square foot. Rates for contracts signed after September 23rd will be \$1.99 per square foot. All per square foot fees for storage include haul out and launch of your vessel.

If you haven't stored at the MYC before please consider this economical alternative that gives you more value for your storage dollars than any other facility in the area. Consider some of the following when making a decision on where to store this winter.

- Competitive prices.
- Crane haul out and launch included in winter storage.
- Secured yard staffed at least 5 days a week during the off season.
- High traffic location which lowers the chances of undetected entry into our yard or your boat.
- Easy access to your boat when you want to work on it, no hauling materials long distances from your car to your boat.
- Ability to contract with anyone tradesman for work that you want performed on your boat unlike other yards that prohibit work from being done by professionals unless they are contracted through the yard. You get the right person for the job at the right price.
- An experienced and helpful staff that cares about your boat and you as a member.

Dan Couillard and his staff are ready to assist if you need to make arrangements to have your cradle moved to the MYC.

We hope you will make the MYC your boat's winter home. To receive the winter storage contract please call the club or download a copy at milwaukeeyc.com.

Sincerely,

John Kuber
Yard & Dock Chairman
